

Hair loss?

Activate your hair growth with Pantogar®!

Information and service: www.pantogar.com

Pantogar®, capsules, hard | Indications: Diffuse hair loss of unknown origin. Degenerative changes in the hair structure (stressed, thin, inelastic, brittle, lifeless, dull, colourless hair), hair damaged by sunlight or UV radiation. Prevention of greying of the hair. Nail growth disorder (brittle, cracked and inelastic nails). For risks and side effects please read package inserts and ask your physician or pharmacist. Version August 2016 | Merz Pharmaceuticals GmbH, 60048 Frankfurt

¹Pantogar® Growtect Formula includes caffeine. Studies show growth-promoting effects of caffeine on human hair follicles for both women and men. | ² Pantogar® Growtect Formula for women contains AnaGain™. Studies show hair-densifying effects of AnaGain™ in female hair growth. | ³ Pantogar® Growtect Formula for men includes Procapil™. Studies show that Procapil™ decelerates hair loss progress in men.

Anti hair loss!

NEW
for women
& for men

Pantogar® Shampoo & Tonic

Reduces hair loss and
activates hair roots.¹
For beautiful and healthy hair.

Discover the growing Pantogar® product family! Pantogar® Shampoo and Tonic

The new Pantogar® Shampoo and Pantogar® Tonic for women are specially designed for female hair loss and consist of the effective Pantogar® Growtect Formula, activating the hair roots¹ and making hair stronger and thicker.

Pantogar® Shampoo **for women** **for healthy hair growth**

The shampoo consists of the effective anti hair loss complex with the active agents AnaGain™ as well as caffeine and B vitamins, stimulating hair growth and improving the resistance of hair as well as the overall hair quality.

Pantogar® Tonic **for women** **for hair growth activation**

The leave-in hair tonic offers an even stronger Pantogar® Growtect Formula, combining the active agents AnaGain™, caffeine, B vitamins and Follicusan™. With a regular application, hair roots can be activated and the vitality of the hair can be restored – for reduced hair loss and denser hair in just 3 months.²

*We recommend
the complementary
use of the Pantogar®
Shampoo and Pantogar®
Tonic for women as
well as for men.*

The new Pantogar® Shampoo and Pantogar® Tonic for men are specially designed for male hair loss caused mainly by excessive production of the male hormone DHT (Dihydrotestosterone). With the special Pantogar® Growtect Formula for men, hair roots are activated¹ and the hair becomes stronger and thicker.

Pantogar® Anti hair loss shampoo **for men**

The shampoo consists of the special Procapil™ anti hair loss complex with caffeine and B vitamins. With a regular application of the effective caffeine shampoo, the microcirculation of the scalp can be improved¹ – leading to a better nourishment of the hair roots and reduced hair loss.

Pantogar® Anti hair loss tonic **for men**

The leave-in hair tonic consists of an even higher concentration of the effective Pantogar® Growtect Formula for the activation of hair roots.¹ Next to caffeine, the special ingredient Procapil reduces hair loss and improves the resistance of hair³. The tonic has a pleasant smell and doesn't leave any visible residues on the hair and scalp. After applying the leave-in treatment, you may style your hair in the usual way.

For ideal results a usage of minimum 3 months is recommended. All of the products are suitable for daily use and every type of hair.
